Policy Title: Advisement Policy

---

Upon his/her enrollment to the Doctor of Nursing Practice (DNP) Program, the DNP Coordinator shall assign a DNP student an advisor who will advise the student throughout the doctoral program. The advisor-advisee relationship is foundational for a student to progress in the program.

If a student wishes to work with a different advisor, or an advisor wishes to no longer serve as an advisor to a student, the student or advisor must address the request for change to the DNP Coordinator, who is authorized to make an advisor-advisee change. The DNP Coordinator shall report any change in advisor to the Student Affairs Office.
