5. Lead and developed the University of Texas M.D. Anderson Cancer Center's Evidence-Based Practice Program for nursing in 2005. This is a unique hospital-wide program for all levels of nurses. Nurses are educated in evidence-based practice principles and conduct unit based projects for practice improvement. This program has led to multiple changes in practice policy and procedures. Changes have been reported by staff at national meetings. Several groups have articles published. Within this program additional resources for nursing development have been added such as, doctoral student support, abstracts development, publication, research strategy development and research grant support.

6. Content Leader - Oncology Nursing Society Research Agenda, 2009-2013.

7. Chairperson – Oncology Nursing Society Research Survey Team- 2013. I was the Chair of the survey team which is a national effort to obtain consensus among oncology nurse researchers for the research priorities for the 2013-2015 ONS Research Agenda. I led the development of the survey instrument, conduct of the survey, analysis of the data. I was responsible for organizing the overall work of the team and reporting the results to the membership the ONS national research conference and for writing the publication. The full report was provided to the Research Agenda team for priority development and integration into the ONS Research Agenda. This

document was also shared with the ONS Foundation and other funding organizations. I will also be a member of that subsequent Research Agenda team.

8. Chairperson American Nurses Association Foundation Grants Program- Chairperson 2012-2013. Responsible for organizing and carrying out grant reviews for over 80 submissions. Continue with ANF as a member of Nursing Research Grant Review committee
