ACCOMPLISHMENTS AND DISTINCTIONS

• Among the top five percent of U.S. nursing graduate schools and the highest ranked in Houston and the Texas Gulf Coast region
• Nationally recognized for pacesetting programs in nursing education
• Students score well above the national average on licensing and credentialing exams
• Graduated the first class of DNP in Texas, established in 2006
• Seven faculty members are inductees to the UT Academy of Health Science Education
• Faculty includes 12 Fellows of the American Academy of Nursing (FAAN)
• Interdisciplinary research environment
• Has granted more than 10,300 nursing degrees to its graduates since 1972
• Provides distance education throughout the state

AWARD-WINNING FACILITY

The School of Nursing is the first LEED® Gold building in the University of Texas System, certified by the U.S. Green Building Council rating system for the world’s greenest, most energy-efficient and high-performing buildings. The $57-million facility has received eleven prestigious local, state and national architectural design awards.

UTHEALTH SERVICES...FOR A HEALTHIER FUTURE

UTHealth Services’ (UTHS) nurse practitioners provide comprehensive primary care across the life span, in addition to occupational and travel medicine. Radiological and laboratory services are also available on site. Since 1991, UTHS has been a source of high-quality employee health care for a variety of companies and organizations throughout and beyond the Houston region, as well as serving the general public.

At some time in life, each of us is affected by a nurse.

PARTNERS was established in 1994 to support and encourage the students and faculty of The University of Texas Health Science Center at Houston (UTHealth) School of Nursing. PARTNERS supports students from enrollment to graduation. PARTNERS funded the student lounge in the new School of Nursing building and provided the students with a state-of-the-art setting for studying or gathering with friends.

PARTNERS raises funds to provide nursing scholarships, faculty research grants and endowed professorships. The PARTNERS Scholarship Endowment has grown to more than $1.7 million in value. PARTNERS has provided over 100 full-tuition nursing scholarships, more than 45 faculty research grants and four endowed professorships. In addition, PARTNERS was a major contributor to the Center on Nursing Research Biological Sciences Laboratory and the Pre-clinical Critical Care Laboratory in the UTHealth School of Nursing building.

Distinguished alumna Lorraine Frazier, PhD, RN, FAAN, FAHA returned to UTHealth in February 2015 to serve as dean of the School of Nursing. With a fresh vision of improving the school, Dean Frazier (pictured above) said “My objectives are to take the school forward in both education and research. I want to focus on building the research agenda and the interprofessional collaboration.”
